

Devrukh Shikshan Prasarak Mandal's  
**Nya. Tatyasaheb Athalye Arts, Ved. S. R. Sapre Commerce, and  
Vid. Dadasaheb Pitre Science College, Devrukh, India**

Autonomous College affiliated with the University of Mumbai

**Department of Geography and Geoinformatics**

### **B. A. in Geography (Part I+II+III System)**

Geography mainly concerns changes in spatial attributes from a temporal perspective. The Honours program in geography is tailored to meet the students' specific educational and professional goals in mind. It focuses on spatial studies, qualitative as well as quantitative, and emphasizes the human-environment relationship. During the first year of the program, the students are trained on advanced concepts of physical and human geography. The third year allows them to concentrate on specific areas of the subject, on which they complete their field reports. After completing the course, the students will be amply prepared for professional careers in geography and allied disciplines like GIS and Remote Sensing. They will also be able to pursue M.A. /M.Sc. Course in Geography.

#### **PSO1.Acquiring Knowledge of Physical Geography:**

The student will gain knowledge of physical geography. The student will have a general understanding of the geomorphological and geotechnical processes and formation. They will be able to correlate the knowledge of physical geography with human geography.

#### **PSO2.Acquiring Knowledge of Human Geography:**

They will be able to acquire the knowledge of Human Geography and will correlate it with their practical life.

#### **PSO3. The ability of Problem Analysis:**

The student will be able to analyze the problems of physical as well as cultural environments of both rural and urban areas. Moreover, they will try to find out the possible measures to solve those problems.

**PSO4. Conduct Social Survey Project:**

They will be eligible for conducting a social survey project which is needed for measuring the status of development of a particular group or section of the society.

**PSO5. Application of modern instruments:**

Students will be able to learn the application of various modern instruments and by these, they will be able to collect primary data.

**PSO6. Application of GIS and modern Geographical Map Making Techniques:**

They will learn how to prepare a map based on GIS by using modern geographical map-making techniques.

**PSO7. Development of Observation Power:**

As a student of the Geography Honours Course, they will be capable to develop their observation power through field experience, and in the future, they will be able to identify the socio-environmental problems of a locality.

**PSO8. Development of Communication Skill and Interaction Power:**

After the completion of the project, they will be efficient in their communication skill as well as the power of social interaction. Some of the students are being able to understand and write effective reports and design credentials, make effective demonstrations, and give and receive clear instructions.

**PSO9. Enhancement of the ability of Management:**

Demonstrate knowledge and understanding of the management principles and apply these to their work, as a member and leader in a team, to manage projects. They will perform effectively as an individual, and as a member or leader in diverse teams, and multidisciplinary settings.

**PSO10. Understand Environmental Ethics and Sustainability:**

Understand the impact of the acquired knowledge in societal and environmental contexts, and demonstrate the knowledge of the need for sustainable development.

**PSO11. Life-long learning:**

Identify the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of societal and environmental change.
